

**US Army Corps
of Engineers®**

Rocky River Harbor, OH

Harbor Features

- Located on Lake Erie at the mouth of the Rocky River, in the City of Rocky River, Cuyahoga County, Ohio.
- Authorization: River & Harbor Acts of 1872, 1937 and 1965.
- Shallow draft recreational harbor.
- Controlling depth are 10 feet in the entrance channel and anchorage basin and 6-8 feet in the river channel.
- The project consists of a 5,000 foot long navigation channel and an anchorage basin.
- The harbor is protected by the east pier with a total length of 900 feet.
- Major stakeholders include fishing interests and the recreational boating community.

Project Needs

- Maintenance dredging is required every 3-4 year. The project was last dredged in 2004 when 18,400 cubic yards (CY) of sediment was removed.
- The current sediment backlog within the functional harbor areas is estimated at approximately 33K CY.

Consequences of Not Maintaining the Project

- Negative economic impacts, locally and regionally.
- Potential safety issues for recreational boating community.

Transportation Importance

- Provides safe access between Rocky River and Lake Erie
